Name of Faculty: DOS Dr. Ignacekindo

Asst. Prof./HOD SangeetaYadav

Asst. Prof. Sharda Singh

Tutorials are small group setting and students meet to discuss and clarify important points arising from the lecture, or from readings for the month. Tutorials and seminars require students to demonstrate their self-directed learning. Tutorial system introduced in our College to develop a better understanding and relationship between the students and teachers. Tutorials are small group setting and students meet to discuss and clarify important points arising from the lecture, or from readings for the month.

The aims of the tutorial are to:

- Provide learning experiences
- Allow you to explore and clarify a topic by asking questions and trying out ideas
- Encourage development of active listening and speaking skills.

Participation in tutorials can help to develop independent thinking; the ability to argue, defend and support a case; the ability to present a viewpoint concisely and selectively; and the ability to discriminate between opinion and evidence.

For a tutorial to work well, students need to:

- Prepare- do the reading!
- Test out ideas
- Ask questions
- Summarise what others have said
- Listen actively and intelligently
- Encourage others to share their ideas
- Provide illustrations and examples of supporting and conflicting evidence
- Challenge ideas in appropriate ways

Speaking Effectively

Students often feel uncomfortable about speaking in tutorials. Knowing what to say, saying it correctly and having the confidence to speak up are essential aspects of effective communication. It takes courage to speak effectively in public, but the tutorial is an opportunity to develop this skill.

Students may lack confidence if they are not prepared, if they haven't understood all the material or if they feel intimidated by other students' knowledge or confidence. Here are some suggestions:

- Begin in small ways: ask a question we have already prepared, or make a point we have understood well.
- Push yourself to make a contribution in each tutorial. Prepare it beforehand.
- Asking for clarification about a key issue or point is often the most approach!

Planning A Presentation

It is common for students to lead tutorials based on the topic for the month. We will be expected to give a talk and to generate discussion. It is common for students to lead tutorials based on the topic for the month.

The topic and come to terms with the main ideas.

- Begin by drawing up a rough plan of our talk.
- Read to gain an overview of our topic.
- Determine what the question is asking.
- Develop your own questions about the topic.
